

Dear customers,

Notice of Sanyo Chemical's Overseas Patents Held: Electrolytes

This is to notify all customers who use Sanyo Chemical's amidine type electrolytes to manufacture capacitors. Some customers have worried about their patent expiration dates in Japan. Sanyo Chemical has a number of patents registered overseas as described in the following table. When you export amidine type electrolytes and capacitors used with the electrolytes, or manufacture them overseas within the technical scopes described in the following overseas patents, please be assured that we do have patents on them.

Sanyo Chemical's Overseas Patents Held

No.	Invention Title	Registration	USA	China	Korea	Taiwan	Germany
1	Electrolytic Solution For Electrolytic Capacitor	No.	—	3137420.4	527.327	92114231	—
		Date*	—	9/17/2008	11/2/2005	8/11/2004	—
2	Electrolyte for electro-chemical capacitor and electrochemical capacitor containing the same	No.	7099146	03816986	—	—	1548769
		Date*	8/29/2006	12/28/2011	—	—	5/25/2011
3	Electrolytic solution for an electrochemical capacitor and an electrochemical capacitor using the same	No.	7858242	—	—	—	1542248
		Date*	12/28/2010	—	—	—	5/9/2012
4	Electrolyte solution for electrochemical device and electrochemical device using the same	No.	8007680	200680035840.5	10-0988183	409834	1947663
		Date*	8/30/2011	1/6/2011	10/11/2010	9/21/2013	9/28/2012

* Date format: month/date/year
