

The World's First Halal Certified SAP for Hygiene Products

SDP Global (Malaysia) SDN BHD (hereinafter referred to as "SDPM"), a consolidated subsidiary of Sanyo Chemical Industries, Ltd. (Head office: Higashiyama-ku, Kyoto City; President: Takao Ando) obtained Halal authentication on January 1, 2019 for the super absorbent polymer (SAP), which is mainly used in various hygiene applications such as disposable diapers. SDPM's SAP is the first Halal certified products in the world (based on available information).

The Halal certification is applied to guaranteed things and actions from raw materials to finished products, including manufacturing process to services which are permissible to use or engage in to Islamic law. The coverage of the halal certification is expanding and it is not only food, but also pharmaceuticals, cosmetics and personal care products, etc. Although there are no international standards of halal certification at present, Malaysian government has been taking initiatives and consolidating strict halal standards. So the certification logo by JAKIM as the authorized government agency is internationally highly recognized and trusted hall mark.

* JAKIM; Jabatan Kemajuan Islam Malaysia (department of Islamic development Malaysia)

SDPM produces SAP which is the main material for various hygiene applications such as disposable baby diapers, sanitary napkins and adult incontinence products, etc. The market of such hygiene products in Asia and the Near and Middle East is growing significantly and further growth is expected. In these regions where there are many Muslims, halal certification would be required for hygiene products which is to be in contact with human's skin. As main material of these hygiene products, Halal certification of SAP can provide assurance to our customers which produce and sell these hygiene products to Muslims. We intend to expand our line-up of high quality and safe halal certified products for growing demand in Asia and the Near and Middle East and elsewhere.

◆Newly halal certified product

Polyacrylate type superabsorbent polymer (For hygiene application)

◆Other halal certified product of Sanyo Chemical group

-Manufacturing and sales: Sanyo Kasei (Thailand) Ltd.

Cationic antibacterial agents
