

Sanyo Chemical Consecutively Selected for the FTSE Blossom Japan Index and FTSE Blossom Japan Sector Relative Index

Sanyo Chemical is pleased to announce that the Company has again been selected as a constituent of the FTSE Blossom Japan Index and the FTSE Blossom Japan Sector Relative Index, both created by the global index provider FTSE Russell. Sanyo Chemical has now been included in the *FTSE Blossom Japan Index* for three consecutive years since June 2023. And it has also been continuously selected for the *FTSE Blossom Japan Sector Relative Index* since December 2023.

The two indices measure the performance of Japanese companies that demonstrate strong Environmental, Social and Governance (ESG) practices and are used by Japan's Government Pension Investment Fund (GPIF) as benchmarks for its ESG-oriented passive investments. In addition to the FTSE indices, Sanyo Chemical is a constituent of the S&P/JPX Carbon Efficient Index and Morningstar Japan ex-REIT Gender Diversity Tilt Index (GenDi J.).

Based on our company mission to "Establish a better society through our corporate activities," We are working on sustainable management that considers sustainability in the environment, society, and economy. We will continuously work on sustainable management to contribute to the realization of a sustainable society and disclose them to improve corporate value.

About Sanyo Chemical

Sanyo Chemical, established in 1949 in Kyoto, Japan, is a global manufacturer and seller of performance chemicals. Originally a producer of soap and textile agents, we have since diversified our product portfolio to meet changing market needs. Today, we offer more than 3,000 different products and have built an international presence. Our chemicals serve a wide range of industries—from automotive components and consumer electronics to cosmetics and medical equipment—all designed to be safe and more environmentally friendly, thereby improving lives and societies worldwide. Through our corporate activities, we aim to contribute to the realization of a sustainable society.
